## City Airport extension to the DLR

**Project:** Landscaping of four new DLR stations

**Client:** AMEC

**Value:** £140,000

### Description of work

Ornamental landscaping project at four new stations on the recently opened London City Airport extension to the Docklands Light Railway. Tilhill Forestry completed work at London City Airport, King George V, West Silvertown and Pontoon Dock stations.

The team on site worked closely with main contractor AMEC to keep roads and pavements open to the public at all times, and overcome limited access to planting areas.

### Landscaping of the four stations' approach roads and environs involved:

- Planting semi-mature trees and over 100 extra heavy (18-20cm) and multi-stemmed trees.
- Planting 33,200 container grown shrubs.
- Bark mulching.
- Grass seeding.

## Project Summaries

### Slieve Croob House, Bristol – Planting and water feature

Visitors to a new office building in north Bristol are welcomed by a water feature and planting scheme.

### Danson Park – Restoration of features and provision of improved facilities

Management and installation of a project to restore Danson Park's early nineteenth century landscape and to provide improved facilities for today's park users. Work to be completed in 20 weeks with parkland remaining open to the public.

### Village Leisure Hotel, Maidstone – Landscaping grounds

Landscaping the grounds of this new leisure hotel in Maidstone, Kent. Works included landscaping and planting the surrounding access areas, and supply of hanging baskets and barrels adjacent to the main hotel entrance.

### Armed Forces Memorial, Alrewas – Soft landscaping

Tilhill Forestry's BALI award winning work on the Armed Forces Memorial was a £210,000 contract for landscaping at the National Arboretum, Alrewas, awarded by Geoffrey Osborne.
