

FANANS

Hazard & Constraints

Powered By

Veteran trees are too numerous to map, and are located throughout the ASNW areas.

The Glen Etive and Glen Fyne Special Protection Area (SPA) is located to the north of the forest, across the River Awe.

The southern portion of the forest lies with the North Argyll Local Landscape Area.

The Glen Nant SSSI is shown, though the Loch Etive Woods designation covers the same area to the west of the forest.
